OCTOBER 17, 2026

1:00 PM

**16353 RINGWOOD ROAD
BARNETT, MO 65011**

WELCOME TO DIAMOND J-D GELBIEH ANNUAL BALANCER AND GELBIEH BULL SALE!

Friends, Fellow Breeders, and Cattlemen:

We extend a warm welcome to our annual production sale on Saturday, October 17, 2026. We are enthused about the set of bulls and heifers in this year's sale offering, genetics that can sustain you and make a difference in your cow herd for years to come!!

Our focus is to provide cattle that are moderate framed, high performance with a docile personality. Our goals revolve around customer profitability with a live calf that has an acceptable birth weight combined with a big growth curve and converts resources to heavy weaning weights with an industry acceptable carcass. We continue to use Embryo Transplant, Artificial Insemination and natural service sires to accomplish these goals.

In closing we would like to say thank you to all our past customers. We truly value your business and your friendship!

The Sensenig family at Diamond J-D Gelbieh

Dear Cattlemen,

I have had the pleasure of working with the Sensenig family over the past 19 years as their veterinarian. I would like to encourage you to attend the 2026 Fall Bull Sale. This is an excellent group of bulls with genetics to improve any herd.

All bulls in this sale have passed Breeding Soundness Exams (BSE) prior to sale date. BSE includes: Scrotal circumference measurement/palpation of testicles, pelvic palpation to assess accessory sex glands, penile evaluation, and collection of semen sample via electroejaculation. Semen is then evaluated for motility, concentration, and sperm morphology. Evaluation of movement, gait, and general health is also evaluated on BSE day. All bulls will have been PI-BVD tested prior to sale date. While all bulls have passed BSE prior to sale date, I recommend they be re-examined within 30 days of turnout.

Tritrichomonas Foetus (Trich) is a sexually transmitted disease of cattle that can cause early abortions and infertility in cows and heifers. Missouri does not require virgin bulls under the age of 24 months to be trich tested prior to movement or change of ownership. All bulls in this sale are guaranteed virgin bulls. Some other states may require bulls to be trich tested negative prior to entering, so please check with your state or local veterinarian regarding your regulations.

John and Jayden strive to produce healthy, functional bulls, with the potential to stay in your herd through multiple breeding seasons. Only sound, healthy bulls will be offered in this sale. I have personally used multiple DJDG bulls in my own commercial herd over the past 15 years, and am always impressed with the growth, disposition, and overall performance of my calves.

Sire: Patent Pending 68K45 (AMGV 1556050) Dam: DJDG Miss Delightful 254L32 (AMGV 1585161)

You talk about a scale buster out of a first calf dam. This calf is powerful with incredible beef, butt, and guts. Put him on a set of cows, and I guarantee his calves will crush your scales at weaning time! His dam, Miss Delightful is a JRI Relentless daughter, and Relentless has been a staple at Judd Ranch in recent years. This guy has a 15 year old dam of distinction granddam, and fertility is bred in.

Lot 13 Red Homozygous Polled (87.5%) Purebred

Name: DJDG Dagger 285N41 (Reg. No. 1655753) Tattoo: 285N41 BD: 9/8/25

Sire: Stimulus 214J32 (AMGV 1510058) Dam: DJDG Ms. Brandy 743E2 (AMGV 1406198)

Big time calving ease option with enough power to still add pounds to any operation. His dam Ms. Brandy 743E4 is a no miss cow with a 360 day calving interval, and features the elite dam of merit honor with a great teat udder. Producers, I highly doubt this bull is an 8.1 frame. It is likely a measurement error. I would estimate him at more like a 6.3 frame.

Lot 15 Black Scurred (68.8%) Balancer

Name: DJDG Magnum 56N36 (Reg. No. 1643943) Tattoo: 56N36 BD: 8/28/25

Sire: Patent Pending 68K45 (AMGV 1556050) Dam: DJDG Ms. Sweet Caroline 53F47 (AMGV 1431792)

Patent Pending sired bred heifer, and she's a beauty. We purchased her dam from Judd Ranch, and she has been an awesome producer, posting a 103 weaning ratio on her sons. Sweet As Pie should possess an awesome teat udder. **Due late May with a Professor 214L54K calf.** The Professor progeny have been awesome and his sons will highlight the 2027 bull sale as they are superstuds. Professor was the top selling bull in the 2025 Judd Ranch bull sale.

COMMERCIAL BRED HEIFERS

We will be offering with a long time bull customer, a set of spring bred commercial grade balancer heifers sired by DJDG bulls. Heifers were A.I. bred to JRI Stimulus 214J32 May 15, and pasture exposed to DJDG Mr. Dynamo 912L44, a highlight Stimulus son from 2023. Both of these sires are proven calving-ease sires. All heifers passed a pelvic score exam before breeding.

We are going to sell them in groups of three, in tag sequence, with the option of the high bidder taking as many as he wants in groups of three.
